

MonKlown Studio

MonKlown Studio is an indie game company based in Vancouver, BC. It is created in January 2023. MonKlown Studio aims to create various games in order to expand their company and find their niche.

In the gaming industry, MonKlown Studio are mostly creating simulator or hack-and-slash genres. Their target audience are in the range of young children to young adults. Simulator genres tend to be popular with young children as it allows them to be more imaginative, while hack-and-slash games are more popular with young adults during their downtime.

Color scheme

Fonts

For the website, these are the proposed fonts that were taken from the FontSpace website. The titles and the buttons will be using the Red World font created by Pixel Sagas. Meanwhile, the text will be using the Monday Feelings font created by Essentials Studio.
